

## Non Invasive Ventilation Breathing Systems

### Continuous Positive Air Pressure (CPAP) Masks

The CPAP Mask is specifically designed to provide a good seal when fitted to the patient whilst providing maximum comfort.

#### Inspiratory Safety Valve

Incorporates a safety valve for inspiration should the flow rate be insufficient or if the inspiratory line be occluded.

#### Contoured Cushion

Conforms to the patients anatomical contour.

### CPAP Masks

038-35-930	Large Adult CPAP Mask	10
038-35-931	Medium Adult CPAP Mask	10

The CPAP Mask head strap is adjustable to accommodate patients requirements with equal interval placements to ensure comfort whilst providing a secure fit. The soft silicone head strap has rounded edges to maximise patient comfort over prolonged periods of use.

### CPAP Headstrap
